Career Objectives

I am an enthusiastic and experienced software developer, mostly interested in web development. Ever since I compiled my first program as a 12 year old, programming has been my passion and hobby. I am a platform-independent coder who, despite having a preference for Laravel, can easily adapt to any kind of programming environment that I am required to use.

Summary of Skills

- Excellent analytical and programming skills.
- Ability to adapt new technology for delivering user needs.
- Experience of full-stack web development.
- Adept in object-oriented design, mostly on Java and PHP.
- Comprehensive knowledge of PHP, Java, Javascript, VueJS.
- Knowledgeable about both IOS and Android Applications.
- Able to use a Git as a sub-versioning systems on projects.
- Have an experience on AWS and some of other popular cloud systems.

Technical Skills

- Mobile Development: Swift, Java
- Web Development Languages: PHP, Javascript, VueJS, jQuery, Java and NodeJS
- Databases: Mysql, Sqlite, Postgresql
- Frameworks: CodeIgniter, CakePHP, Symphony, Laravel, Spring
